21st November 2006

FOR IMMEDIATE RELEASE:

Object Management Group supports Cambridge Code Generation event

The Object Management Group has joined the list of organizations supporting next year's Code Generation 2007 event.

Andrew Watson, the Group's Vice President and Technical Director said, "*Model-Driven approaches are the next evolutionary step in programming technology. With its practical focus, this event gives developers the knowledge to take this step.*"

[Code Generation 2007](#) will bring together leading software developers, vendors and consultants in Cambridge's Homerton College from 18th - 20th May 2007. Cambridge-based Software Acumen, owners and operators of the web's number one free resource on Code Generation – The Code Generation Network - are organizing the event.

The event programme is under development but is planned to include keynote addresses, tutorials and other sessions from thought-leaders in the field of **Code Generation, Model-Based Development, Software Factories** and other related areas.

The deadline for submission of session proposals is **12th January 2007**. Please visit the [event website](#) for more information on the type of sessions being solicited and the submission process. Accepted session leaders will have their conference fees waived.

Object Management Group members who participate will receive a 10% discount on their conference fees.
