## ***Kelly and Voelter to keynote Code Generation 2009***

The organisers of next year's [Code Generation 2009](#) event have announced Steven Kelly (MetaCase) and Markus Voelter (Independent) as event keynote speakers. Both Steven and Markus are recognised names in the Code Generation community and their participation is expected to further boost attendance at this growing event.

Steven is CTO of MetaCase and co-founder of the DSM Forum. He has over fifteen years of experience of tool building and consultancy in Domain-Specific Modelling. As architect and lead developer of MetaEdit+, he has seen it win or be a finalist in awards from SD Times, Byte, Net.Object Days, and Jolt Productivity. He has co-authored a book and over 20 articles in journals such as Dr. Dobb's, and regularly speaks at events like Code Generation and Software Architect.

Markus Völter works as an independent consultant and coach for software technology and engineering. He focuses on software architecture, model-driven software development and domain specific languages as well as on product line engineering. Markus is (co-) author of many magazine articles, patterns and books on middleware and model-driven software development. He is a regular speaker at conferences world wide.

[Code Generation 2009](#) will take place from June 16<sup>th</sup>-18<sup>th</sup> 2009 in Cambridge. A Call for Speakers will be issued in October 2008. Visit the [Code Generation 2009](#) web site to register your interest.
